

GUIDELINES FOR SHARK TANK EVENT

3rd International Conference on Uncertainties and Financial Markets in the Asia-Pacific Countries, 2022

Following on from the highly successful inaugural SHARK TANK event at the World Finance Conference 2019 in Santiago, [Professor Robert Faff](#) from the [Bond University](#) will co-ordinate and lead a **SHARK TANK** stream at the 2nd International Conference on Uncertainties and Financial Markets in the Asia-Pacific Countries to be held in China. The SHARK TANK will target **HIGH QUALITY** seasoned papers presented at the conference, to go through a **fast-tracked review** at *PBFJ*, based on a carefully designed process described below. Put simply, SHARK TANK presenters will strive to convince journal editor sharks to “sponsor” their already executed paper toward possible future publication in the proposed SI of *PBFJ*.

The SHARK TANK is based on a two-dimensional pitch process: (1) a **written pitch**, and (2) a matching **oral pitch**; embedded in the following sequence of steps:

Pre-conference

STEP 1: Authors must **explicitly nominate** for the SHARK TANK event.

STEP 2: STEP 1 authors must create and submit a **1,000 word written pitch** by **31 March 2022**, following the instructions outlined on page 2 of this call.

STEP 3: A final set of papers will be selected for the SHARK TANK stream of the SI program based on a **ranking** of aggregate Shark votes. Authors will be notified no later than **June 2021**.¹

STEP 4: SHARK TANK presenters will be required to carefully design a **PPT** slide deck **faithful** to their structured written pitch – these PPTs will form the basis of their SHARK TANK oral pitch during the conference.

During-conference

STEP 5: SHARK TANK presentations will be scheduled within a dedicated stream of the PBFJ SI program.² Each oral pitch will be followed by Q&A led by the keenest editors (and from the audience, time permitting), the sharks will offer a “**green light**” or “**orange light**” or a “**red light**” decision.³

Post-conference

STEP 6: Ultimately, subject to **accepting an offer** from the shark editors, author teams commit to a “**Revise and Resubmit**” process.⁴

Important Dates

- **Shark Tank EOI Nomination Deadline (STEP 1):** March 1, 2022
- **Shark Tank Pitch Submission Deadline (STEP 2):** March 31, 2022
- **Shark Tank Decision Notification (STEP 3):** June 2022.⁵

SHARK TANK PITCH Submission Process

1. Using the [pitching framework](#) and advice given in [Faff \(2019, “Pitching Research”, SSRN: <http://ssrn.com/abstract=2462059>\)](#), create a reverse-engineered pitch of your *PBFJ* SI paper.

IMPORTANT NOTE: for the final part of the pitching framework, “Other Considerations”, please answer highlighting your paper’s **three “signature” findings**.

2. All written pitch submissions for the *PBFJ SI* must be made via the web portal:⁶
<https://PitchMyResearch.com>

Further Enquiries

For any clarifications/queries regarding this **SHARK TANK** event, please email **Professor Faff** directly:
rfaff@bond.edu.au

¹ All sharks will help screen the papers & pitches defined by STEP 2 on multi-faceted characteristics, including quality, interest, relevance, journal fit – voting for papers that they would most like included in the SHARK TANK stream of the conference. Those papers not making the SHARK TANK “cut” will revert to the normal program (and will have discussants as per usual).

² Oral pitches are to be primarily directed to the shark panel, in an open forum of **30 minutes for each paper**. Specific advice on how each 30 minute-slot will be structured, will come with the notification in STEP 3.

³ Only those papers receiving at least one “**green light**” will proceed to STEP 6. In those cases where more than one shark editor is interested, a “competitive process” will ensue to achieve the ideal match of paper to journal. Due to time constraints, this process will occur “offline”.

⁴ The post-conference review process is fully defined and fully controlled by the Editor in question. That said, it is envisaged that for each SHARK TANK paper, one journal editor will take charge of sourcing a pre-conference written review (the choice of “sponsoring” editor based on a confidential “bidding” process between the sharks). Moreover, any such report from that process will be shared among all interested sharks (with the *ex ante* express permission of the reviewer). Such reports, combined with the meaningful feedback received at the conference during the Shark Tank event; would likely constitute the “backbone” of a referee’s report for an “R&R” decision – thereby fast-tracking the review process. While the review process will be streamlined and fair, there are no guarantees on ultimate acceptance of the paper at the given shark’s journal.

⁵ Specific details of how the SHARK TANK sessions will be run will be given with adequate notice, prior to the conference.

⁶ The first step is to register as a user, then click on the button “pitching competitions” and follow the instructions.
